

Megan Czerwinski

Final Poster Proposal

For my final poster, I am going to be comparing:

Suicide Mortality Rates vs. Alcoholism in the United States by county

I will be getting the data from the CDC (<https://www.cdc.gov/nchs/pressroom/sosmap/suicide-mortality/suicide.htm>) for suicide mortality. For alcoholism, I will also be getting the data from the CDC (<https://www.cdc.gov/alcohol/data-stats.htm>). I will be doing interpolation maps for both sets of data to highlight the areas where rates of suicide and alcoholism are higher in the United States. Based on prior knowledge, I think maps may look similar as to where the highest rates are. There is a link between alcohol use and suicide.
